Shifts

Shifts are a normal part of life. One day you are going one way and the next God redirects you to a new path. God is always doing something new in your life because He wants you to live out this adventure called life with Him. Although uncomfortable, God wants you to say yes to His shifting and get excited at what He is doing in your life.

Pruning

With every shifts comes pruning. As God is taking you from one level of glory to the next, HE will often remove the things that don't serve you. Has God been pruning you? Have you been experiencing losses in your lifep? Maybe you have had people leave you or it could be a job that you have lost. This could be God redirecting you to your next.

God's Redirection

God's redirection is not always pretty in the early stages. In fact, His redirection is always messy and confusing. This is because as human beings it is often difficult to want to get out of our comfort zone. So God will often shake the ground we are on in a bid to redirect us to the new path He has for us. I want to encourage you to lean in and hold on tight to Him in the shaking. There is something beautiful on the horizon if you faint not.
