

# KEY DISTINCTIONS OF GOD'S TIMING

## Has a set time

The thing that God promised you will not come to pass until the set time no matter how much you try to do it in your own strength

## Is Divinely Orchestrated

Usually requires little to no action on your end. When the time is right God makes it happen. And His doing brings glory to Him alone

## Draws you closer to God

One key factor about God's timing is that, you will definitely have to rely on Him because you will not even understand what He is doing most of the time.

## Exercises your faith muscles

God's timing will develop your faith muscles and also develop your perseverance. Everytime God delays in doing something you need, He wants you reflect Him more and this will require faith

## It supercedes your expectation

When God sets time to do something, whatever He is about to do will be greater than you could ever have imagined. There will be a miracle involved that does not require your skills or abilities.

## Cannot be changed

The Israelites had to wait for the 70 years to be over before leaving Babylon. When God sets a time for your breakthroughll hinder it from happening and nothing you do will change its course. So the key is to be patient and trust that God will bring to pass what He has promised you. nothing wi
